Address: 410 Boyd, Los Angeles, CA (off San Pedro, between 3rd and 4th St)

Parking lot available! (lot fills up, arrive early)

*Donation requested*

Please join DataCenter Board and staff, with Eileen Ma of Koreatown Immigrant Worker Alliance, long-time DataCenter partner, in celebrating the transition of co-founder Fred Goff and his over 30 years of service to the DataCenter, and 45 years to the social justice movement. Fred will share a brief reflection on how social justice research, as a means of leveraging community knowledge to build grassroots power, has been, and always will be, a crucial movement asset.

Our **Gala on Wednesday, November 10, 2010**, titled *ReGeneration: Research Legacies Moving Forward*, will provide us with the opportunity to celebrate this legacy as a community in Oakland, CA.

Leading up to this, we are holding local events in various cities to reconnect with each other and weave a fabric of research legacies to pass on to the next generation. As someone who has played an important role in unlocking the power of community knowledge for social change, we hope you will come share your stories and perspectives and enrich our collective story to pass on to the next generation.

We also want you to meet with our staff and board, hear about DataCenter's brand new 5-year Strategic Plan "Research Justice in a New Era (2010-2014)," and view copies of recently released reports with partners like PrYSM (Providence Youth Student Movement) and Right to the City Alliance. We're excited to move into the next era of Research Justice with you! Please join us.
